LDV eT60 – TECHNICAL SPECIFICATIONS

LDV eT60 ELECTRIC

	eT60
Engine	
Type	Permanent magnet synchronous motor
Drive	Rear Wheel Drive
Maximum Power	130kW
Maximum Torque	310Nm
Maximum Speed	120
Electricity Consumption (Wh/km)	268.5
Driving Modes	Power, Normal & Eco

Battery

Type	Lithium-ion
Capacity	88.55kW
Maximum Range (km) (WLTP) ²	330

On Board AC Charger

Type	Type 2
Maximum Charging Capacity (kW)	11
Standard Charging Time (5-100%) Single Phase (hours) ³	13
Standard Charging Time (5-100%) Three Phase (hours) ³	9

On Board DC Charger

Charging Capacity (kW)	80
Standard Charging Time (20-80%) ³	45 min (approx.)

On Board Emergency Domestic Charger

Output Capacity	2kW
Type	Type 2

Disclaimers:

- Range figure is based on WLTP (Worldwide Harmonized Light Vehicle Test Procedure) static laboratory combined average city and highway cycle test. Figures stated for the purposes of comparison amongst vehicles tested to the same technical procedures only. Actual real world driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions. The rated range displayed on the Energy Consumption label affixed to the car is calculated according to the ADR 81/02 NEDC based standard as defined by UNECE R101/01 (rather than the WLTP), so the range displayed on the label is different to that shown here.
- Charging times may vary based on factors including but not limited to charger type and condition, battery temperature, electricity supply, auxiliary consumables (e.g. air-conditioning) and environmental conditions. The time taken for successive rapid charging can take longer if the battery temperature activates the battery safeguarding technology.

	eT60
Steering, Brakes & Suspension	
Steering	Electric Power Steering
Front / Rear Suspension	Double-Wishbone / Leaf-Spring
Front / Rear Brakes	Disc / Disc
Turning Circle (kerb to kerb, metres)	12.6
Wheels and Tyres	17" Alloy Wheels with 245/65R17 Tyres with Tyre Repair Kit

Warranty⁵	
New Vehicle Warranty – 5 year/160,000km (whichever occurs first) ⁵	✓
Roadside Assist – 5 year/Unlimited km (whichever occurs first) ⁵	✓
Battery Warranty – 8 year/160,000km (whichever occurs first) ⁵	✓

Disclaimers:

3. Payload and tare weight figures are based on vehicle certification. It is the driver's responsibility to ensure: weight of fully loaded vehicles do not exceed GVM; front and rear axle load limits are not individually exceeded; the combined weight of the fully loaded vehicle (including tow ball download when towing) and trailer does not exceed the GCM; compliance to State and Territory towing regulations. Payload is the combined value of occupants, luggage, cargo, added options, accessories and tow ball download (when towing). Tare weight includes the vehicle with a full tank of fuel and all standard equipment excluding occupants. Additional weights of optional features, occupants, luggage, cargo, accessories and tow ball download (when towing) must be taken into account when calculating payload and tare weight. When a genuine tow bar and wiring are fitted, blind spot monitoring will be disabled.
4. Safety technologies may not operate optimally under all driving conditions, operation and effectiveness depends on many factors. Driver is responsible for safe and attentive driving. Safety technologies are not a substitute for the driver's control over the vehicle. See owner's manual for complete details.
