- Torque figures are quoted independently for front and rear electric motors respectively and cannot be added together.
- ^A Figures tested in accordance with ADR81/02 (combined test). Figures stated for the purposes of comparison amongst vehicles only. Actual fuel consumption and CO2 emissions depends on factors such as traffic conditions, vehicle condition, how you drive and any accessories fitted.
- Gross Vehicle Mass is the maximum loaded mass of a vehicle.
- † Kerb mass is the unladen mass of the vehicle with full tank of fuel without any accessories fitted.
- * Towing capacity is subject to towbar/towball capacity and is based on the fitment of a Genuine Nissan towbar. Towing capacity figure described is a maximum figure. Actual towing capacity depends on the laden mass of the vehicle, driving conditions, fitment of any accessories or towing equipment limitations including the maximum towball download.
- + ProPILOT cannot prevent collisions. It is the driver's responsibility to be in control of the vehicle at all times. Always monitor traffic conditions and keep both hands on the steering wheel. System operates only when lane markings are detected. Does not function in all weather, traffic and road conditions. System has limited control capability and the driver may need to steer, brake or accelerate at any time to maintain safety. See Owner's Manual for safety information.
